### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the response to the restriction requirement, Applicant elects (Y-1) as elected species. In that claims 1-2,4-6 and 8-10 are read on the elected species. Since none of the prior art has been found, then the search is expanded to non elected species, such as (Y-3) in that claims 1,3-5 and 7-10 are read on the elected species. If said species could not be found or Applicant's arguments overcome the prior art rejection, and this is the case, then the search will be expanded to other non-elected species such as (Y-2) and (Y-4). However, none has been found.

Since the repeating unit m can be 0 then the search for Y2 and Ar2 are not required.

The following is an examiner's statement of reasons for allowance:

Claims 1-10 are allowable over the prior art because none of the prior art documents discloses or suggests the use of at least Y1 has the claimed formulae (Y-1), (Y-2), (Y-3), and (Y-4) in general formula (i) in the claimed insulating film forming material and in the claimed porous insulating film forming material.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
